

Greetings,

Please do not gie LPFM priority over current FM translator service. I am specifically writing about K-LOVE. This network of stations has served me well the past 2-3 years since I've been listening. K-LOVE has a positive message and encourages me. There are no other stations that provide commercial free music in my area. K-LOVE provides a public service that allows families to seek an alternative to other forms of music and speech that can be detrimental to young ears.
